

Richmond Community College

Career and Promise Program

If you live in Scotland or Richmond counties, and your son or daughter takes two dual enrollment (DE) classes while in high school (11th and 12th grade), and maintains a B average, then RCC will award him/her with four semesters of free tuition as long as the student starts the semester following graduation.

If your child plans to attend college for a degree, AA, AS, BA, or BS, then a good class to start with is ENG111 or PSY150. These are both offered online and are relatively easy. Both require reading and writing papers, but are still good starter classes.

If your child is leaning towards a trade, then these classes may not be necessary. There are trades available for DE.

In order to qualify for all of the RCC DE classes, the GPA must be 2.8 or higher.

If the GPA is lower than 2.8, there are some classes available, like Criminal Justice and several trades. Many trades offer degree programs as well as certificate programs.

If your child is interested in taking RCC classes, please fill out the online application and let the counselor know which classes are of interest.
